

# IGME560 Spring 2017

Group 9 - Alec Bielanos, Alexander Earley, Ross Hoelscher

Project 1 - Documentation

## Starting the Simulation:

- Double click the 'IGME560\_Grp9\_Project1.exe' file found in the same folder as this document. A small window should appear.
- Set your desired graphics settings using the dropdowns.
- Click the 'Play!' button at the bottom when you are ready to start.

## Controlling the Simulation:

- Press and hold W, A, S, D to move the unit
- Press 'Space' to jump
- Press 'R' to restart the scene from the beginning
- Press 'C' to change the camera
  - Camera 1: Overworld View
  - Camera 2: Player-Following
- Press 'Escape' to exit the simulation
